

Finish your day earlier & save 5 hours per week with BizzyAI

Your integrated AI assistant, **purpose-built for private allied health practices.**

Four tools, one simple workflow

BizzyAI takes care of the documentation and communication that slows your day down, so you can spend less time catching up, and more time with clients, doing the work only you can do.

BizzyAI: Scribe

Capture sessions

Transcribes live client sessions or dictation; and drafts structured clinical notes.

BizzyAI: Write

Create quicker

Draft notes, letters, emails, templates, policies, and client communications.

BizzyAI: Refine

Clean up your notes

Turn rough notes into clear, structured documentation in your preferred style.

BizzyAI: Insights

Find answers faster

Use client history to create summaries, referral letters, and communications.

The win: less admin after the last appointment

56 mins

average saved/day*

20 hrs

average saved/month**

*Based on a 2025 survey of BizzyAI Beta User Group. **Based on an average of 21 working days per month.

"Within a few minutes of a client leaving the office the notes are completed. I can now leave work at work and not bring it home."

Pete F., Counsellor & Private Practice Owner

Worry-free AI with the strictest healthcare security

Zanda is ISO 27001 certified and independently audited for HIPAA, GDPR, and global data protection compliance. All BizzyAI data is processed & encrypted in real-time; no data is retained after processing. A signed BAA governs data handling, and **no client data is ever used to train AI models.**
