CarePredict

IMPROVE STAFF EFFICIENCY AND CARE DELIVERY

A MORE CONNECTED APPROACH TO CARE

At Edgewood Meadow Wind, CarePoint has transformed daily operations. Care teams can now capture care tasks in real time, document directly in resident rooms or anywhere in the community, and respond more quickly to unscheduled needs. This seamless workflow strengthens both resident support and care team efficiency.

KEY BENEFITS OF CAREPOINT INTEGRATION

- Point-of-care documentation improves accuracy and efficiency
- Real-time visibility into both scheduled and unscheduled care
- Real-time autonomous staff location monitoring accurately picks and applies task durations, simplifying documentation

MEASURABLE IMPACT ON CARE TEAM & RESIDENTS

With CarePoint, care teams capture critical care moments efficiently, creating a foundation of accurate data that drives better outcome and safer care.

Saves 2 hours per day

Front-line staff at Meadow Wind save nearly **2 hours** per day, allowing for more meaningful engagement with residents.

10% decrease in call alerts

Improved visibility into resident needs has contributed to a **10%** month-over-month decrease in call alerts, allowing teams to proactively address concerns before they escalate.

CarePredict

BUILT FOR THE WAY CARE TEAMS WORK

How Meadow Wind is improving care delivery through real-time documentation and seamless integration

ONE SEAMLESS CARE WORKFLOW

CarePoint brings together the best of CarePredict and ALIS, delivering a bi-directional integration that streamlines care documentation. Care teams can now document all scheduled and unscheduled ADLs in one easy-to-use application at the point of care. CarePoint automatically knows how long a care team member has been in proximity to the resident and helps associate the times to the care tasks. This means more accurate documentation and better care delivery visibility.

"CarePredict has been great! We have seen a strong ROI, not just in time saved, but by how we are better able to support our residents. CarePoint has made it easier for our care teams to document care in the moment and stay on top of resident needs."

– Kandus Brooks, Executive Director at Meadow Wind

OPERATIONAL IMPROVEMENTS AT A GLANCE

- Care teams document at point of care, reducing missed or delayed entries
- Ability to track unscheduled care tasks, capturing missed revenue
- Care team adoption is high due to ease of use
